Roof,
Rafters,
Joists ,
(all wood)
FLOOR JOISTS
Wood Studwalls
FLOOR JOISTS
Wood Studwalls
FLOOR JOISTS
Anchor Bolts placed in
wet concrete to hold down
house to the foundation.
FLOOR JOISTS
OPTION 2:
All Masonary Ground
Floor level walls
(as opposed to
wood).
Use Poured Concrete
walls or Concrete
blocks and mortar.
(Poured concrete is
best, especially
when using
reinforcing bars)
Wood 2x4 or 2x6
studwall base ends
Wood 2x10 floor
joists
OPTION 1:
Concrete or masonary bulkhead
if needed, or
exterior treatment.
Sacrificial wood to
seperate the floor joist
platform from the
poured concrete walls in
order to help extend life
of joists.
Poured Concrete
Slab
